UX DESIGNER | FRONTEND DEVELOPER

UX Designer and Frontend Developer specializing in designing and building responsive, user-centered web applications. Skilled in translating high-fidelity UX/UI designs into scalable, accessible frontend code using JavaScript, Lit, and component-based architecture.

SKILLS

UX & UI Design: UX Design, UI Design, Interaction Design, Wireframing, Prototyping, User Research

Frontend Development: HTML, CSS, JavaScript, TypeScript, Responsive Design, Accessibility (WCAG)

Frameworks & Libraries: Lit, Shoelace, Bootstrap

Tools & Platforms: Figma, Adobe Creative Cloud, WordPress

Other: Component-Based Architecture, Design Systems, Agile Development

PROFESSIONAL EXPERIENCE

UX Designer / Frontend Developer (Freelance)

IPDmons – September 2024 – April 2026

- Designed and developed scalable UX/UI solutions for complex web applications, including document viewers, multi-panel layouts, and dashboards
- Translated high-fidelity Figma designs into production-ready frontend code using JavaScript, Lit, and Shoelace
- Built reusable, component-based UI systems to improve development efficiency and consistency
- Implemented responsive design patterns for seamless user experience across devices
- Developed advanced UI interactions including collapsible panels, dynamic toolbars, and selectable grids
- Applied accessibility best practices (WCAG) across UI components
- Customized UI components using CSS variables and design tokens for consistent branding

Frontend Developer

James Madison University – February 2024 – April 2024

- Developed a web-based management system for local government collaboration and file handling
- Designed UX workflows and prototypes to improve usability and reduce inefficiencies
- Created wireframes and interactive prototypes using Figma
- Built responsive frontend interfaces using HTML, CSS, and JavaScript
- Worked in agile sprint cycles to deliver iterative improvements
